YOUR PEACE OF MIND IS OUR LEGACY

40 Years of Trust. A New Era of Protection.

Introducing Our Strategic Partnership with the SRC Monitoring Station

A Legacy of Trust, A Future of Innovation

Welcome to Oshawa Security Systems

For four decades, Oshawa Security Systems has been the trusted name in security for our local community. Our core mission has always been to provide our clients with not just security, but unwavering confidence.

We are excited to inform you that we have recently taken over all security clients and operations from Smarter IT Services, ensuring a seamless transition and our continued commitment to your safety.

A Personal Commitment from Your Owner & Operator

"I, Kevin Ausman, along with our dedicated team, am committed to maintaining the high standards of service you deserve. With 40 years of experience, we have the expertise to protect what matters most to you."

— **Kevin Ausman, Owner & Operator**

A Quantum Leap in Security Protection

Announcing a Transformative Advancement

We are constantly innovating to ensure the protection we offer is not only robust today but is also prepared for the challenges of tomorrow.

It is with immense pride that we announce our strategic partnership with the **SRC Monitoring Station**, a premier facility renowned for its technological excellence. This collaboration marks a quantum leap forward in our capability to safeguard your people, property, and assets.

This isn't just an upgrade; it's a complete evolution of your monitoring service.

The SRC Advantage: Unrivaled Local Vigilance

Why SRC is a Game-Changer for You

Local Expertise Meets Cutting-Edge Technology

SRC operates one of the most sophisticated monitoring centers in Canada, **right here in Ontario.**

- **Deep Local Knowledge:** Unlike national providers, their proximity ensures a deeper understanding of local response protocols and conditions.
- **State-of-the-Art Infrastructure:** Their facility is equipped with full redundancy and advanced cybersecurity measures, guaranteeing **uninterrupted vigilance 24/7/365.**

The Critical Human Element

Your security is monitored by a highly specialized team of **certified professionals**, not automated systems alone. This human element—experts who can assess, analyze, and

react with precision—provides a layer of intelligence and reassurance that technology alone cannot match.

Your Direct Line to Ultimate Priority

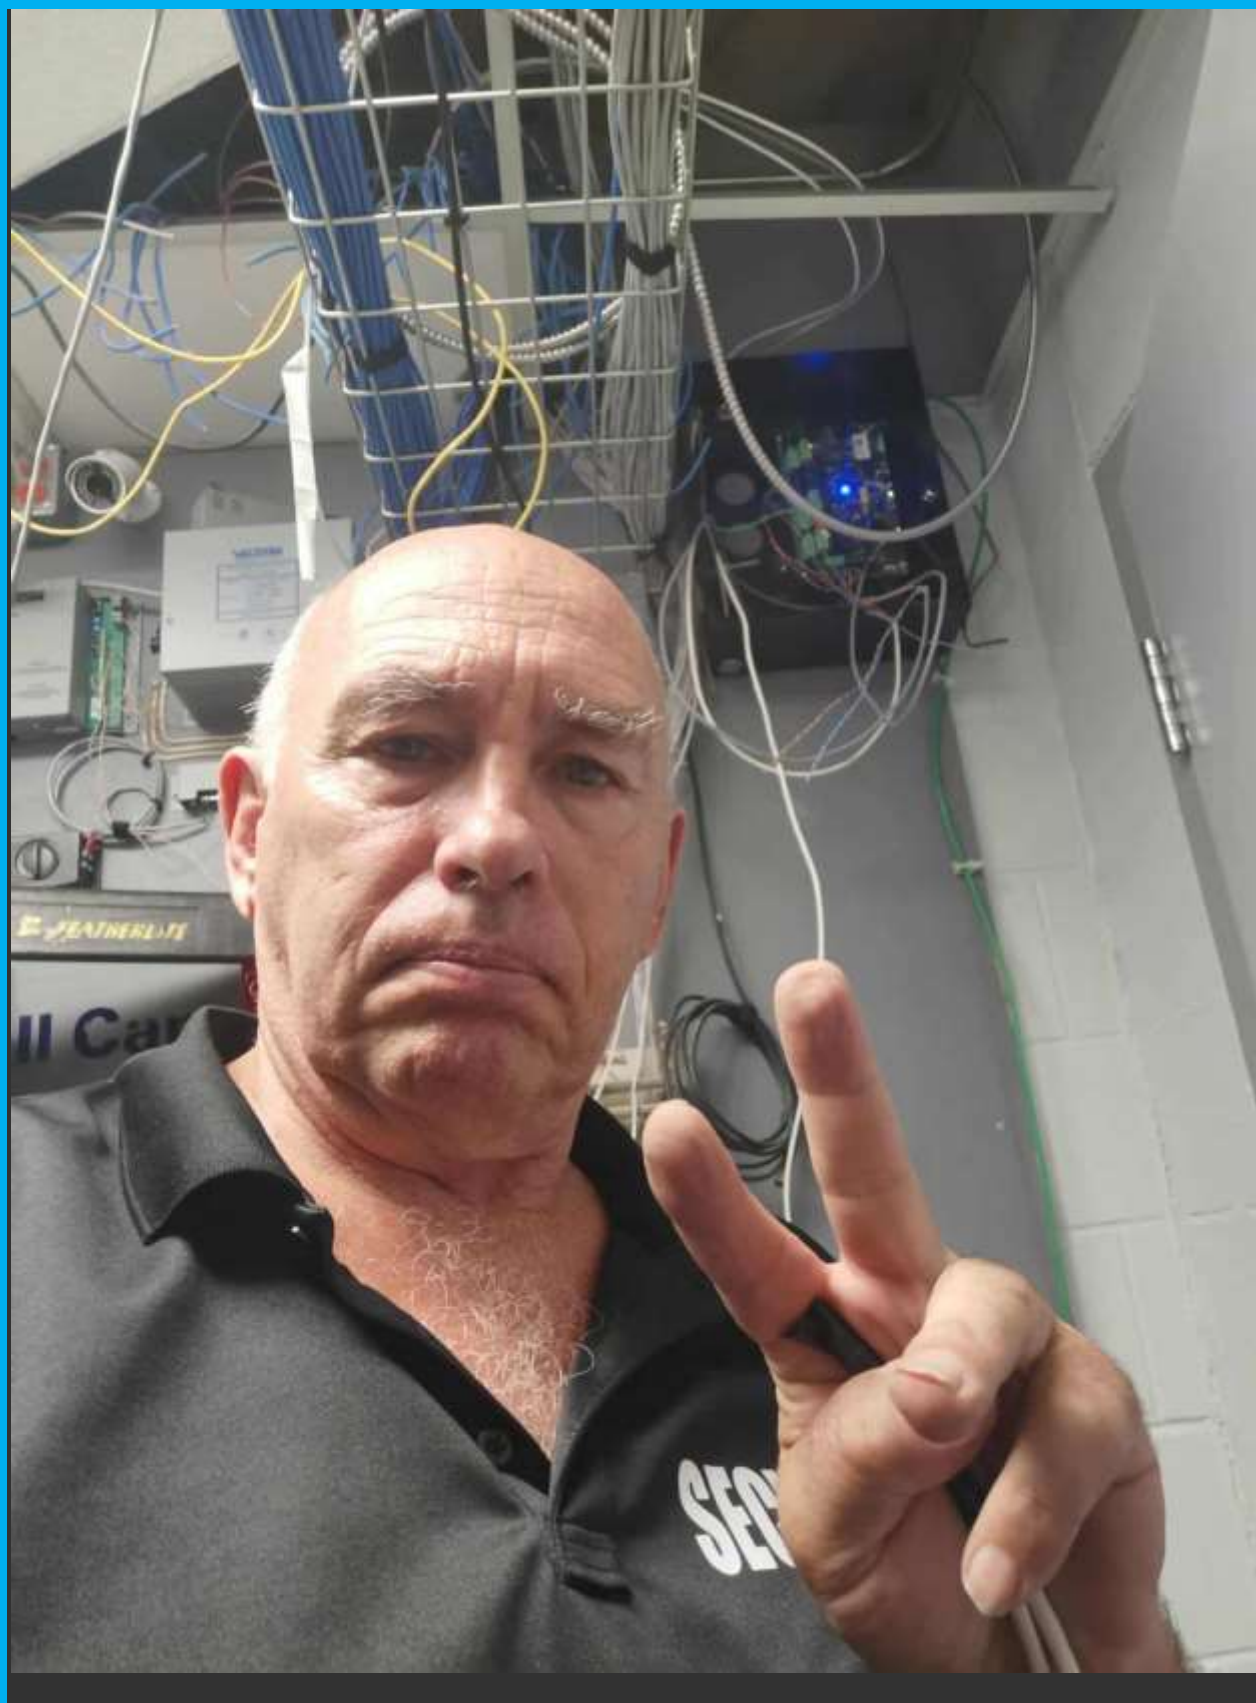

A Dedicated, Direct Line for Immediate Response

To ensure your signals receive immediate attention, we have established an **exclusive, dedicated alarm line** directly to SRC for all Oshawa Security clients.

This prioritized pathway eliminates potential delays, ensuring the fastest possible response to every event.

Proactive Assurance & Enhanced Communication

Going Beyond the Standard

Your safety is our priority, which is why we believe in proactive service.

- **Seamless Transition Assurance:** We have performed rigorous diagnostic testing on client systems to ensure a flawless transition to SRC monitoring.
- **Comprehensive System Health Checks:** We strongly recommend scheduling a test of all sensors (e.g., freezer alarms) to ensure complete coverage and prevent potential loss.
- **Complimentary SIM Messaging:** For clients who prefer text message alerts or wish to receive both a call and a message for critical alarms, this added layer of communication is **provided at no additional cost**.

Our Core Security Solutions

Tailored Security for Your Needs

With four decades of experience, we specialize in providing comprehensive security solutions tailored to your specific requirements.

CCTV & Video Surveillance

Gain clarity and control with state-of-the-art camera systems that provide high-definition monitoring and recording for your property.

Access Control Systems

Manage who enters your facility and when. From keypad entry to advanced card and fob systems, we provide secure and customizable access solutions.

Your Partner in Security

Our Service Philosophy

We understand that every business and home is unique. That's why we take the time to understand your specific concerns and design a security ecosystem that fits.

From initial consultation and installation to ongoing support and proactive system checks, we are with you every step of the way.

We are your local partner, dedicated to the safety and security of our community.

Let's Secure Your Future Together

Ready to Experience the Oshawa Security Difference?

We recognize you are busy. We would appreciate the opportunity to connect soon to:

- Personally discuss this major upgrade.
- Answer any questions you may have.
- Schedule a convenient time for a full system test.

Thank you for your continued trust and partnership. We are truly excited to deliver this elevated standard of security and service to you.
